

# Credex Web Development Internship Assignment

## Objective

Build a responsive, single-page marketing website for a fictional software resale startup. This assignment checks your ability to quickly ship a usable product with clean code, relevant content, and good design instincts.

## Your Task

Build a 1-page responsive website for a fictional company called 'SoftSell' that includes:

- 1. Hero Section - Headline and subheading (you write it), CTA button (e.g., “Get a Quote”, “Sell My Licenses”)
- 2. How It Works - Three steps: e.g., Upload License -> Get Valuation -> Get Paid. Icons or visuals preferred
- 3. Why Choose Us - 3–4 bullet points or tiles with icons and small descriptions
- 4. Customer Testimonials - Add 2 dummy reviews (name, role, company)
- 5. Contact / Lead Form - Name, Email, Company, License Type (dropdown), Message (frontend validation only)

## UI/UX Expectations

- Visually appealing and modern
- Use Tailwind, Bootstrap, or custom styles
- Mobile responsive layout
- Coherent color palette and font family

## Tech Guidelines

- Use React.js + Vite or Next.js
- Host on Vercel, Netlify, or GitHub Pages
- Use dummy data, no backend needed
- Include a README.md with features implemented, design choices, and time spent

## Bonus Points

- Logo placeholder or favicon
- SEO meta tags and page title
- Light/dark mode toggle
- Use of animations (e.g., Framer Motion)

### **Bonus: LLM-Powered Chat Feature**

Add a basic AI-powered customer chat widget.

- Use an open-source wrapper like Langchain or OpenAI API
- Hardcode example questions (e.g., 'How do I sell my license?')
- LLM can be mocked or real (free-tier OpenAI key)

Evaluation:

- Clean UI integration
- Intuitive chat UX
- Clear prompts and fallback responses

### **Deliverables**

- GitHub repo link (public or invite access)
- Live URL (hosted site)
- Aim for 48 hours max from receiving this brief

### **Remain Connected**

We have received 2000+ applications. So chances of getting to work with you is less than 1% but would love to stay connected. If you feel comfortable then please send connection request on LinkedIn to stay connected: <https://www.linkedin.com/in/aditya-adhana-2b0aa4357/>
